# 1 About Keilhauer

## About Us

Provoking, iconic, and covetable, Keilhauer is recognized around the world for design excellence. Every piece in our expansive offering features unparalleled craftsmanship, thoughtful details, and incredible comfort. Made from the finest materials, and with the utmost consideration for the environment, we believe that everyone deserves to be made a little more comfortable.

All Keilhauer furniture is built from the highest quality materials, and designed and manufactured to last for many years. Our products are supported by a standard 10-year warranty. All seating is certified BIFMA level<sup>®</sup> 2 and has SCS Global Services certification for Indoor Air Quality at the Indoor Advantage<sup>™</sup> Gold level. Our manufacturing facilities produce zero waste to landfill, and offset 100 per cent of electricity use with renewable energy credits.

Our expertise in design for collaboration makes Keilhauer an ideal supplier for healthcare environments

# 2 Siliform<sup>®</sup>

## About Siliform

Where infection control is an issue, we have a innovative material.

Siliform<sup>®</sup> is Keilhauer's patented process for using silicone as an upholstery.

The upholstery is ideal for healthcare because it is inert, impermeable to fluids, inherently flame retardant, does not off-gas, and does not support microbial growth.

It can be cleaned easily with soap and water and withstand the harshest of hospital grade cleaners.

# 3 Sky Stool

## About Sky Stool

Sky Stools is a comprehensive series geared to clinics and labs, but suitable for many other applications.
